Cable Management System

AXIS ELECTRICAL COMPONENTS (I) P. LTD.

Our Vision

To be a leading global enterprise providing innovative & value based solutions in the Electrical & Energy Sector.

Our Mission

AXIS is committed to deliver excellence and superior value to our customers, shareholders, employees and society at large. Our mission is driven through the 4 pillars of:

- 1. Customer Centricity:** To become the “Supplier of Choice”, delivering products and services and creating value for our customers.
- 2. People Centricity:** To be the “Employer of Choice”, nurturing and developing talent, fostering teamwork & capability with a high sense of pace, passion and pride driven by value & culture.
- 3. Community Centricity:** To be recognized as a responsible corporate citizen through facilities, being legally compliant and driven by a strong corporate governance.
- 4. Business & Technology Centricity:** To drive innovative, efficient & effective systems, processes and delivery backbone backed by technology for a sustainable and scalable business growth and value.

Company Profile

Leading Manufacturer & Exporter

Axis is the leading Indian Manufacturer & Exporter of a wide range of Electrical Components used in Electrical Installations and in the Equipment Building industry. Our main customer base consist of Distributors/Wholesalers of Electrical Products, Electrical Contractors & Installers, Equipment Manufacturers, Maintenance Companies and Government Authorities.

Exports to more than 80 Countries Worldwide

Over the years, Axis has supplied high quality and tested products to thousands of customers in over 80 countries. As a result, the Axis brand has become synonymous with Quality.

International Certifications

Axis invests heavily in continuous improvements in its products and manufacturing processes. This allows Axis to always be ahead of the curve through certifications and approvals from around the world. Products manufactured by Axis follow widely accepted international such as BS, DIN, UL, NFC, AS/NZ & Indian Standard (IS). CRISIL India, an S&P subsidiary, rated Axis as having the highest performance capabilities and strong financial strength.

Constant Improvement

Axis's dual focus on foreseeing customer requirements and looking at the future of the industry, translates to a continuous desire to evolve and upgrade our product offerings.

Quality Management

Our goal is to provide each customer with products, systems and services that meet the highest standards of quality. To assure quality management, Axis has achieved an ISO 9001 Certification.

Installation of Axis CW Cable Glands on Steel Wire Armoured (SWA) cables.

Cable Glands

The AXIS Industrial Cable Gland product range offers users solutions that are designed and manufactured for fast assembly and reliable performance. AXIS Cable Glands are constructed from high-quality materials made with copper alloy for high strength and nickel-plated for corrosion resistance. With gland sizes ranging from metric threads M16 to M100 and inch threads 1/2" to 3", AXIS Cable Glands are dependable with rapid installation methods for passing power cables to panels for Industrial applications, the Oil & Gas Industry and more, with increased efficiency, safety, and reduced costs.

The AXIS Industrial Cable Gland range is designed, manufactured, tested and comply with International Standards like IEC 62444 & BS 6121.

A1/A2 Industrial Cable Gland

Brass indoor and outdoor cable gland highly suitable for all types of unarmoured cables, plastic or rubber sheathed cables. This gland provides a seal on outer sheath.

Recommended to use PVC shroud for additional ingress protection.

BWL Heavy Duty Industrial Cable Gland

Brass indoor glands most suitable for single wire armoured, plastic or rubber sheathed cable.

Lockring provided for additional grip to the armour.

Earth tags to be use for earth continuity.

BWL glands are also supplied with integral earth facilities.

Recommended to use with shroud for additional ingress protection.

CW Industrial Cable Gland

Brass indoor and outdoor gland most popularly used with single wire armoured, plastic or rubber sheathed cable. Terminates and secured cable armouring and outer seal grips sheath of cable thus ensuring mechanical strength and earth continuity.

Earth tags to be use for earth continuity.

CW brass glands are also supplied with integral earth facilities.

Recommended to use PVC shroud for additional ingress protection.

CXT Industrial Cable Gland

Brass indoor and outdoor cable gland suitable for braided armoured type, plastic or rubber sheathed cables.

This gland provides seal on outer sheath.

Recommended to use with PVC shroud for additional ingress protection.

TECHNICAL DATA

Type	CXT
Design Specification	BS 6121 : Part I
Ingress protection	IP66
Gland Material	Brass
Finish	Plain Brass or Nickel Plated
Seal Material	Thermoplastic Elastomer
Cable Type	Braided Armoured Type
Sealing Technique	Displacement Type
Sealing Area	Outer Sheath

Gland Size	Cable Dimension Accomodated		Gland Dimensions					E-Code
	Overall Diameter		Dia 'A'	Dia 'B'	Metric Entry Thread 'C'	Minimum Thread Length 'D'	Across Flat 'E'	
	Min	Max

Dimensions in mm

Gland Accessories

LOCKNUTS

Locknuts are recommended to use with cable glands to secure it to a gland plate or to equipment.

It is highly recommended to use brass locknut with gland for all the atmospheric conditions.

Sizes available from 16mm to 90mm
(Imperial and PG sizes also available)

EARTH TAGS

Earth tags are installed between the cable gland and equipment to provide earth continuity as specified in BS 6121 Part 5

Sizes available from 16mm to 90mm

PVC SHROUD

The shroud are recommended to use with all cable glands to provide additional ingress protection and to minimize the risk of dirt or any foreign substance gathering around gland body.

PVC Shrouds are denoted by gland reference number and are compatible with each glands size.

LSF SHROUD

The shrouds are recommended to use with all cable glands to provide additional ingress protection and to minimize the risk of dirt or any foreign substance gathering around gland body and also where there is a concern of fire safety.

LSF Shrouds are manufactured from low smoke and fume, halogen free material.

It possesses the properties of self extinguishing and non-dripping in fire risk environment.

It is also available in different colours. (eg. Red, Yellow, Blue, Black, Orange, White, etc.)

Gland Kit

Kit Details

Axis provides ready to use gland kit which consists of all the basic components required to terminate the cable to the equipments.

See kit details below.

Size	Component / Kit
20 - 25	Glands, Locknuts, Earthtags, PVC Shrouds and Screws - 2 Ea.
32 - 90	Gland, Locknut, Earthtag, PVC Shroud and Screw - 1 Ea.

Note: For A1/A2 Glands Earth Tag not required.

8  Protected against the effects of submersion

Cable Cleats

The AXIS Cable Cleats product range offers users solutions that are designed and manufactured for fast assembly and reliable performance. AXIS Cable Cleats are constructed from materials made with high strength Aluminium Alloy and engineering plastics using the best manufacturing processes that maximise tensile strength to meet the axial and lateral loads. With Cable diameter ranging from 15mm to 150 mm Cable Cleats are dependable with Safe Bundling and Fastening in indoor and outdoor Industrial applications during short circuits or power surges.

The AXIS Cable Cleat range is designed, manufactured, tested and comply with International Standards like IEC 61914.

Cable Cleat-Single Way

- Suitable for use with cable diameters 30 to 135 mm.
- Manufactured from Aluminium alloy.
- Two -piece, two fixing design.
- Can be double stacked on common fixings.
- Operating temperature - 60°C to +105°C.
- Suitable for LV & HV cables upto 132KV.
- Can be used for all types of cable routes.
- Plain finish for normal industrial areas or indoor application.
- Epoxy coated version available for harsh environments/outdoor.
- Optional Neoprene & EPDM liner available.
- In accordance with BS EN 61914:2009.
- Short circuit withstand : 110 KA (peak)
- Supplied with SS 304 Fasteners.

Cable Ties & Accessories

The AXIS Cable Ties product range offers users solutions that are designed and manufactured for fast assembly and reliable performance. AXIS Cable Ties are constructed from high-quality materials made with Stainless Steel - Grade 316 and Epoxy polyester coated for corrosion resistance. With Cable tie sizes ranging from 3/16" (4.6 mm) to 5/8" (16 mm) Cable ties are dependable with Safe Bundling, Fastening, and Identification in Corrosive Environments for Industrial applications, the Oil & Gas Industry and more.

The AXIS Industrial Cable Tie range is designed, manufactured, tested and comply with International Standards like IEC / UL 62275.

Stainless Steel Cable Ties - Releasable

AXIS CABLE GLANDS

Earthing & Lightning Protection System and Exo Thermic Welding

AXIS provides complete range of E & LP products & system in order to achieve total protection to the Structures, Equipment and community. These products are manufactured in accordance to International standards such as BS EN, UL & IS

Electrical Connectors

Axis manufactures wide range of Lugs and Connectors sizes ranging from 1.5mm² -1200mm² of Copper, Aluminum & Bimetal. These products are Compression or Bolted type. Popular standards such as BSEN, IS & UL are followed to manufacture and to test these Connectors.

Cable Management System

AXIS Cable Glands and accessories are manufactured according to the functional requirements of IEC 62444 and DIN standards. AXIS Cable Cleats are manufactured in accordance with IEC 61914.

AXIS Cable Ties can be supplied with other accessories like Markers, I.D. Tags & Carriers used in oil refineries, petrochemical industries and other utilities worldwide. These cable ties comply to UL-1565 and BS EN 62275 standards.
